☐ Please check if any of the above information has changed since previous year.

II. Mining and Reclamation

1. Was there any mine related activity during the past year? Yes ☒ No ☐
2. If no - what was the last year of activity? _____
3. If yes - how much ore or mineral was mined? 400 yards ✓

4. Briefly describe the type of work performed, volume of material moved, and any new or additional surface disturbances that occurred during the past year.
Hauling of existing rip-rap from the pit was placed inside the State Marina along the southwest side between the ramp and the south dike. This project was needed to protect the bank from erosion. The rip-rap material was left-over from the mining activity of 1997.
5. How much **additional acreage** was disturbed during the past year? None.
6. How much acreage was **reclaimed** during the past year? None.
7. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.
N/A
8. What is the **total disturbed acreage of entire project** at year's end? 4.4 acres.
9. Briefly summarize any mining and/or reclamation plans for the upcoming year.
It is our intent to mine at this location as the need arises to perform maintenance at the Bear Lake State Marina. These maintenance efforts are to protect the existing break-wall from wave or ice damage with rip-rap material mined at this location.

NOTE: Section III., "Additional Information" applies only to **large mining operations**.

III. Additional information

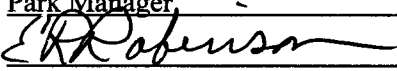

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. Signature Requirement

I hereby certify that the foregoing is true and correct.
